

BEHIND THE  
**REDGIANT**

"Behind the RedGiant é uma banda instrumental que oferece uma experiência sonora por entre melodias longas carregadas de uma melancolia, tantas vezes, frenética, que se resolve e transforma em tempos de respirar, com um som mais limpo, quando somos transportados para longe, para dentro. Abraçam influências várias, que não escondem, como o rock ou o metal, mas são eles próprios.

A voz, se voz houvesse, seria a deles -de uma bateria decidida, poderosa, assertiva nos detalhes, acompanhada por um baixo coerente, firme e honesto. Das guitarras sofridas e enfurecidas, a coexistir em e entre harmonias."

Por Catarina Martins

"Behind the RedGiant is an instrumental band that offers a sound experience through long melodies loaded with melancholy, so many times frantic, that resolves and transforms itself into times to breathe, with a cleaner sound, transporting us far away, inwards. They embrace various influences that they do not hide, such as rock or metal, but they are themselves.

The voice, if there was a voice, would be theirs – of decisive, powerful drums, assertive in the details, accompanied by a coherent, firm, and honest bass. From sorrowful and enraged guitars, coexisting in and between harmonies."
